## PERSONAL STATEMENT

With eight years of experience, I am a dedicated Software Engineer specializing in NextJs, React, Angular, and VueJs. I have a deep understanding of key concepts such as components, services, modules, and routing. My career has been marked by a strong reputation for designing and developing sophisticated web and mobile applications and solutions, optimizing code efficiency, and ensuring top performance. I am well-versed in cutting-edge technologies and development tools, staying at the forefront of industry advancements. Known for my problem-solving skills and attention to detail, I consistently achieve outstanding results. Additionally, my collaborative nature allows me to seamlessly integrate with cross-functional teams, working harmoniously with designers and backend developers to create cohesive and visually compelling user interfaces.

## SKILLS

### HTML

HTML5, Accessibility, SVGS

### UI Framework

Tailwind, Bootstrap, Material UI

### Continuous deployment

Netlify, GitHub, Vercel

### Unit Testing

Jest, Enzyme, React Test Library

### State Management

Redux, React Hooks, MobX

**Cloud Platform:** Amazon web services

**Build tools/ Framework** - vite, webpack, NPM, Yarn

**Frontend Testing** - Lighthouse, WebPageTest, Calibre, Caching, UglifyJs, Responsive Design, Visual testing, SEO, React Hooks, Integration testing, Browser Rendering, Progressive Web Apps,

**Security** - Auth0, JWT, Clerk, Okta, Amazon Cognito

### CSS

CSS, SASS, Styled Components

### Javascript

JavaScript, TypeScript, Es6, RxJS

### Agile

Scrum, Kanban

### Version Control

Git, Github, Gitflow, Gitlab

### Backend

Express, NestJs, NodeJs, Python

### Web Framework

ReactJs, Angular 11, 12, NextJs, VueJs

### Automation

Cypress, Browser Compatibility, Usability

### APIs

Rest, GraphQL, Web API

### Collaboration Tools

Trello, Slack, Jira, Confluence

### Database

SQL, MongoDB, MySQL

## EMPLOYMENT HISTORY

### Boohoo Group PLC, Manchester, Hybrid - Senior Software Engineer

August 2023 – January 2024

- Working closely with the solution architect to understand *project requirements*, alignment, architectural principles, and best practices.
- Developed and maintained web applications using ReactJS and TypeScript, focusing on delivering high-quality and performant user interfaces for the B2B eCommerce platform.
- Collaborated with a cross-functional team of backend developers and Software Architects to integrate RESTful APIs and GraphQL endpoints, ensuring seamless data flow and synchronization.
- Developed *authentication* and *authorization* systems integrating with *Auth0, JWT, and Okta* to enhance security and user experience.
- Directed a dynamic team of frontend developers/engineers through the complete *software development lifecycle*, from inception to delivery, ensuring meticulous adherence to project timeline and quality benchmark.  
**Skills:** *NextJs, ReactJs, Redux, MongoDB, Storybook, AWS, Typescript, Jira, Confluence, GraphQL, MaterialUI, AWS Amplify*

### Pakt, Remote - Senior Front-End Developer

Dec 2022 – June 2023

- Developed interactive web3 components with Storybook, utilizing the Atomic Design methodology to create complex UI structures, templates, and pages. This approach has improved development efficiency and consistency, leading to a 25% reduction in time-to-market for new features.
- Designed a robust UI testing strategy with react testing library and vitest to ensure seamless integration of components, resulting in higher quality and reliability of the overall system.
- Experienced in leveraging the NextJS App Router to create efficient and scalable routing structures for web applications and Image providers to manage and optimize image loading to serve high-performant visual content.

- Works with experienced team members to conduct root cause analysis of issues, review new and existing code, and perform *unit testing*.

**Skills:** *NodeJs, NextJs (App router, Suspense), ReactJs, Redux, Storybook, Typescript, HTML5, App router, Jira, confluence*

**Project link(s):** <https://pakt.world/>

#### **Key Achievements**

- Creating a modern, responsive, and *visually appealing user interface and layout* that provides an intuitive and easy-to-use experience for users.
- Optimizing the performance of the web platform by *improving page load times* and minimizing the number of HTTP requests.

### **GIGX Technologies, Remote - Lead Front-End Developer**

April 2021 - May 2022

*"The secure and simple way to send and receive money across borders."*

- Developed functional and appealing web and mobile interfaces with *Typescript, ReactJs, Redux, and CSS* to enhance usability and increase customer retention and user engagement.
- Facilitated code reviews and *pair programming* to produce clean, high-quality code.
- Collaborating with back-end developers to consume APIs powered by smart contracts
- Implemented, *Enhanced, and Optimized* SEO strategies for single-page applications using NextJS

**Skills:** *NodeJs, ReactJs, Redux, mongoDB, GraphQL, NextJs, SEO, Agile (Kanban & Scrum), AWS, and CI/CD*

**Project link(s):** <https://gigxpad.com/>

#### **Key Achievements**

- Integrated the web application with blockchain APIs, such as Ethereum or Bitcoin, enables users to interact with the blockchain intuitively and user-friendly.
- Improved *Data Analytics and visualization* dashboard for stakeholders to measure progress growth and company turnover.

### **GIG LOGISTICS - Frontend Developer**

February 2019 - May 2021

- Participated in optimizing applications to ensure timely and high-quality delivery of functionality for GIG Logistics eCommerce solutions, which increased user engagement by 25%.
- Enhanced front-end performance through image optimization and clean coding practices, accelerating load times.
- Participated in agile software development while working with other Developers, Business Analysts, and other departments to architect and implement new functionality.
- Applied *SEO techniques* to drive engagement and improve Google rankings.

**Skills:** *Angular10, JQuery, C#, NextJs, SEO, Agile (Kanban & Scrum), Azure, CI/CD*

**Project link(s):** <https://giglogistics.com/>

#### **Key Achievements**

- Implemented analytics and tracking tools to monitor user behavior and performance, provide insights for the business, and improve the user experience.

### **PLANET NEST - Full Stack Developer**

April 2016 – June 2018

- I excellently translated UI/UX design wireframes to actual code that will produce visual elements of the application.
- Executed and introduced the use of version control tools like GitLab and GitHub.
- Functioned as a Facilitator in a Bootcamp with 100+ undergraduates in attendance.
- Ensured that security and quality assurance best practices were followed throughout the entire software development cycle

**Skills:** *PHP, MySQL, Vanilla JavaScript, Angular10, JQuery, C#, NextJs, SEO, Agile (Kanban & Scrum), Azure, CI/CD*

### **EDUCATION**

**University of Derby** - Derby, United Kingdom

Master of Science, Big Data Analytics (*Jan 2022 - Jan 2023*)

**Federal University of Technology**

Bachelor of Technology (Hons), Computer Science (*Nov 2012 - August 2018*)
